Listing 1: Python example

```
x = 1

while x < 10 :
    print x
    x += 1
```

```
1 #include<iostream>
2
3 using namespace std;
4
5 int main(){
6     cout << "Hello World" << endl;
7     return 0;
8 }
```

Listing 2: C++ example

```
import javax.swing.JApplet;  
import java.awt.Graphics;  
  
public class Hello extends JApplet {  
    public void paintComponent(Graphics g) {  
        g.drawString("Hello, world!", 65, 95);  
    }  
}
```

Listing 3: Java example
